

Lechuza®

Planters
for stylish
living

*With the original
LECHUZA sub-
irrigation system*

Clever watering with LECHUZA

- LECHUZA's original sub-irrigation system turns plant care into child's play.
- Never overwater again
- Up to 12 weeks without further watering

The All-in-One Sets already come with the LECHUZA sub-irrigation system.

How do LECHUZA planters stand above the rest?

Attractive planters are a dime a dozen. But do they also meet your plant's needs? LECHUZA planters do:

The sub-irrigation system ensures superb plant growth

LECHUZA turns plant care into child's play: Simply fill the water reservoir integrated in the bottom of the planter once. Then let LECHUZA tend to your plants for up to 12 weeks*, without the need for further watering.

No waterlogging - even outdoors

The original LECHUZA sub-irrigation system is suitable both for plants with high water needs as well as for those that require significantly less water, such as succulents (cacti, yucca, etc.). Thanks to an overflow function integrated in the bottom of the planter, LECHUZA provides potted plants with the perfect amount of water – even when used outdoors. When the drain plug is removed, excess rainwater runs off, preventing plants from becoming waterlogged.

NEW: The LECHUZA All-in-One Sets

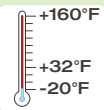

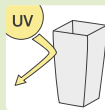

Now every LECHUZA planter comes complete with the proven LECHUZA sub-irrigation system!

RONDO planter in the All-in-One Set: already comes with the interchangeable plant liner and LECHUZA sub-irrigation system.

* depending on planter size, plant and location.

High-quality planters, made in Germany

- Modern design, stylish finishes in brilliant colors
- Shatterproof
- UV-resistant
- Frostproof

RONDO and DIAMANTE

Premium-class product innovation.

DIAMANTE's unique structure with a high-gloss finish on all surfaces reveals the planter's multifaceted personality from every angle.

The purist style of RONDO with its timeless silhouette harmonizes well with all planters from the CLASSICO family.

Together, these premium planters ideally showcase captivating plantings and naturally care for them with the right amount of water thanks to the integrated sub-irrigation system.

Plant liner

DELTA

Award-winning design for discerning tastes.

Since its introduction, DELTA has already earned the respect of many admirers and received international awards for its exceptional design. The DELTA concept is as multi-faceted as its use. The clear, flowing forms will inspire you to place the planters in the most unique locations – alone, as a pair or in a row. The 6-inch deep, 7-inch tall DELTA 20 table planter offers you new possibilities for creative plantscaping even in small spaces where it was previously almost impossible to find the right size planter.

With their sculptural silhouette, DELTA planters set stylish accents even in the most discerning environments.

Practical:

The sub-irrigation system is already integrated in the DELTA 20 plant liner.

DELINI

To turn small objects
into a big attraction ...

... you need intelligent solutions in every detail.

True connoisseurs only bring tasteful things to the table: DELINI from the LECHUZA table planter collection is one of these.

The 7-inch tall DELINI harmonizes perfectly with DELTA 20, which is the same height.

Good news for your plants: DELINI already comes with LECHUZA-PON plant substrate and the LECHUZA sub-irrigation system.

CUBICO – Buxus

LECHUZA CUBICO planters with integrated LEDs for outdoors: Advanced technology and the clever LECHUZA plant liner open up new possibilities for adding light to your outdoor plantscape.

CUBICO-plant liner

- Sturdy carrying handles
- Easy transport even for tall plantings

CUBICO-coaster

- Mobile in every direction
- With four rollers

CUBICO 22 – Miltonia hybride

CUBICO 22
22x22x41 cm (9x9x16 inches)

CUBICO and CARARO

For those who clearly follow their own personal style.

The clear design of the elegant CUBICO column opens up unlimited possibilities for creative plant lovers as a floor or table planter for both exciting and unique arrangements. And your imagination will thrive with CARARO's 30-inch wide planting area. This elegant trough shape is ideal for partitioning or sectioning a room.

Adds boundaries to your room, not your imagination: Two hidden rollers make CARARO a mobile divider.

CARARO – Dracaena 'White Stripe'

CLASSICO and QUADRO

Timeless style

Style is the art of standing out without showing off. CLASSICO and QUADRO are masters of this art. Two planters whose originality comes from their sheer elegance that allows them to fit perfectly in any surrounding.

The LECHUZA coaster is available for both planters size 43 and up and allows easy movement to any location, even when planted.

QUADRO 35 – Kalanchoe beharensis

QUADRO & CLASSICO coaster

The LECHUZA coaster makes QUADRO and CLASSICO size 43 and up mobile – without being seen.

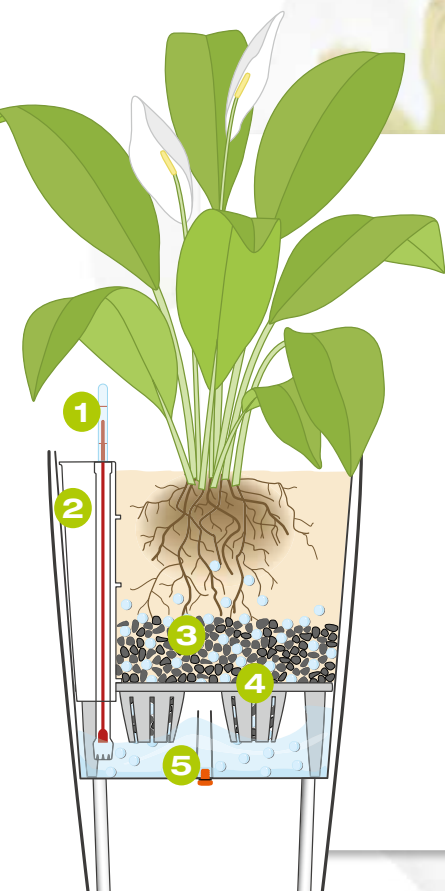

QUADRO 28 – Lilium hybride

The original LECHUZA sub-irrigation system

The secret to beautiful plants is found inside every LECHUZA planter: The LECHUZA sub-irrigation system.

Whether you are away for a few days, or simply can't find the time in your busy schedule to take care of your plants – LECHUZA's sub-irrigation system takes care of your plants for you for up to 12 weeks (depending on planter size), providing them with the right amount of water and nutrients for optimum growth. The principle is simple: Just fill the LECHUZA water reservoir completely and your plants will “nurture themselves” for up to 12 weeks. And you won't have to water them once.

The innovative LECHUZA sub-irrigation system

LECHUZA cares for your plants just as nature intended:

- 1 Water level indicator**
Ensures complete watering control
- 2 Water supply shaft**
Makes adding water and liquid fertilizer easy
- 3 LECHUZA-PON as a separating layer**
Perfectly controls the water supply to the plants
- 4 Separator**
Forms the water reservoir in the bottom of the planter
- 5 Drain plug**
Is removed to allow excess rainwater to drain when used outdoors.
